HEAVY-DUTY WASTE SHREDDERS

The Trimator ShredMaster series reduces plant material size in waste processing, drying pre-processing, and extraction pre-processing applications.

The ShredMaster series is designed to shred wet and dry material, including whole plants, flowers, hardened stalks, root balls, and plastic pots. Electrically powered, the ShredMaster is a quick, quiet solution to size reduction for both indoor and outdoor environments. Customizable output diameters can be selected to create the perfect output size for drying or extraction pre-processing.

QUICK SIZE REDUCTION

HEAVY DUTY

High-torque gear drives, hardened hexagonal shafts, and heavy-duty bearings ensure long service life.

SAFETY-FIRST DESIGN

Designed for safe operation with front-mounted easy-access controls.

INCREASED SHREDDING CAPACITY

Optimized infeed opening creates more surface area for shredding.

UL/CSA COMPLIANT

UL marked for easy permitting and inspection compliance across the US and Canada.
