

KIEF KIT

OPTIMIZE PRODUCTIVITY

Seamlessly turn your dry bud trimmer into a kief/pollen tumbler. Swap the standard trim drum for the 150-micron stainless steel mesh drum using our turn-and-lock system, and insert the catchment tray. Get the most out of your harvest and increase profits with additional kief applications.

REVOLUTIONIZE YOUR TRIM

KIEF TUMBLING

CO₂ or dry tumbling. The kief or pollen is collected in a catchment tray.

EASY TO USE

Simply swap the standard trim drum for the kief tumbler and insert the catchment tray.

KIEF KIT FEATURES

The kit includes a 150-micron mesh drum, a special catchment tray, and a brush for collecting.

CLEANING

All surfaces can easily be hand or machine cleaned with soap and hot water.

AVAILABLE FOR DRY AND MINI DRY

Trimmers sold separately and required to use the Kief Kit.
