

KIRPY

CBD HEMP HARVESTER

The KIRPY CBD Hemp Harvester is an automatic whole-plant harvester for cutting, notching, and loading entire CBD hemp plants.

Built by KIRPY in France, and exclusively distributed by Triminators, the RMTD harvester makes quick work of large-scale hemp harvests. The PTO-powered harvester can process plants up to 6 feet in height and 2.75 inches in diameter at a rate of up to 2,200 stalks per hour. With over 25 years of production history as a tobacco harvester, the KIRPY Hemp Harvester is field-proven and ready for large-scale production.
