

MEGA DRY

INDUSTRIAL-GRADE TRIMMING

The Trimator Mega Dry is the fastest dry trimmer in the world. It's specially built for large commercial volumes, capable of trimming up to 50 acres a day with boutique-quality results.

The Mega Dry meets the demands of commercial-scale smokable hemp and cannabis farms by offering fast and streamlined production. The fully automated infeed and adjustable quality control conveyor reduce labor and provide shelf-ready results. The innovative Pure Trim™ shear band reduces downtime and allows for fewer cleanings in between trimming sessions. The Mega Dry can be configured to fit perfectly for every farm and facility.

INNOVATIVE TRIMMING

1,000 POUNDS PER HOUR

Massive production for large-scale producers. Process cannabis and hemp quickly and cost-effectively.

LOW-IMPACT SYSTEM

Vacuum-free design means 100% of the trim is captured and ready for extraction.

FARM-READY CONFIGURATIONS

Optional super sack or conveyor trim capture systems available to fit your operation.

FULLY AUTOMATIC

Automatic loading and quality control conveyors make commercial-scale production easy.

GMP READY

100% food-grade components make the Mega compatible with any GMP facility.

PURE TRIM™

Lubricant-free cutting system provides a close, pure trim with hand-trim quality results.
