

MAKER™

INDUSTRIAL-SCALE HASH WASHER

Achieve optimal trichome separation and high yields of potent extract. Developed in collaboration with some of the best hash producers, the Maker™ is designed to deliver top-tier bubble hash for solventless labs.

OPTIMIZED TRICHOME SEPARATION

AUTOMATIC WASHING CYCLES

Choose the settings for your wash sequence and start the machine. The Maker™ will automatically run through the cycle with your pre-set spin directions and timer.

REDUCE LABOR AND BOOST EFFICIENCY

All-in-one system and automatic operation free up personnel for other tasks. Prep collection bags, cold trays, and utensils while the flower is washing.

EASY CLEANING

Reduce downtime with the built-in tilt system for quick and easy cleaning. FDA-approved food-safe stainless steel construction ready for any GMP-certified facility.

GENTLE ON TRICHOMES

No-shear impeller creates a gentle vortex for easy trichome separation. Built-in pump and drain let you cycle the water back through the Maker™ for additional rounds of washing.

PURE SOLVENTLESS EXTRACTION

Ensure maximum potency and high yields of bubble hash for extraction. Make the most out of your product and turn your bubble hash into pure solventless rosin.
